

Museum Curator in Engineering

Smithsonian Institution
National Museum of American History
Kenneth E. Behring Center

Division of Work and Industry

We seek an historian of technology familiar with U.S. expansion/empire, environmental history, and the built environment. The incumbent will evaluate historic collections in civil and mechanical engineering, help chart a path forward for digital access, create exhibitions as part of a team, and build collections. We welcome scholars versed in gender or race histories.

Candidates should have a demonstrated ability to think and interpret material culture and archival resources related to engineering. Experience working with material culture or in museums is a plus. ABD or recent Ph.D. in American Studies, History, Public Humanities, or Science and Technology Studies is required.

This is a Trust (non-Federal) position limited to a five-year term.

Starting salary: IS-12 - \$83,398 annually, plus an excellent benefits package.

To apply, please submit a cover letter outlining your qualifications and desire to work in a museum setting and a full C.V. with three professional references. Applications should be submitted by email with the subject “Engineering Curator” to NMAHApplications@si.edu by **June 15, 2019**.

The Smithsonian is an Affirmative Action/Equal Opportunity Employer. Women, minorities, people with disabilities, and candidates of all backgrounds are encouraged to apply.
