

EXPLUS Covid 19 Product Catalog 2020

As part of our effort to help museums, schools and companies open safely when the time is right, we have developed some products for contact-free visitor interaction.

Our In-House printing capabilities enable branding and messaging right on to the panel. Directional text, photo imaging, logos, and wayfinding are all possible enhancements available through our printing department. All products can be customized to meet your specific requirements.

We continue to develop new and innovative products that we can customize to fit your unique visitor experiences.

Desk Separator: Product Code DS

Provides Social distancing barrier to customers and employees. Standard size is 30" w x 24" h x .25" plexiglass with stainless steel feet. Includes an 8" wide x 4" high pass through opening. Easily transported, moved on countertop and stored. Directional text, photo imaging, logos, and wayfinding are all possible enhancements available through our printing department. Custom shapes and sizes are available. Price per separator is \$115.00 plus shipping.

Front Elevation Typical Panels

Entrance Management and Bag Inspection Layouts

The key to a successful visitor experience in a post Covid 19 museum, is to provide clear directions throughout the museum, with proper social distancing and zero physical contact between visitors and staff. This begins at your front door; by arranging EXPLUS' clear or semi-clear barriers as a corridor with graphics marking 6' spacing, visitors can be led to a touchless screening area where they can be safely evaluated for entry. Our consultants can work with your team to design a proper layout for your needs.

Entranceway Isometric

Circular Floor Graphic for Social Distancing: Product Code CFG

12" diameter durable self-adhesive vinyl floor graphic, custom printed with your logo and Branding Messaging. Custom shapes, colors and sizes available. Price per graphic is \$20.00 plus shipping.

Temperature Monitoring Station: Product Code TMS

Protect your visitors and staff with a temperature monitoring station: visitor places forehead near opening proper for their height, staff use a handheld Laser Thermometer to assess temperature, if temperature is normal visitor may proceed. Directional text, photo imaging, logos, and wayfinding are all possible enhancements available through our printing department. Standard size is 36" w x 72" h x 0.25" thick Acrylic with aluminum frame and custom feet. Custom shapes and sizes available. Price per panel is \$571.00 plus shipping.

Standard Clear Acrylic Screens: Product Code CAS

Create a see-through visitor passageway from entrance to screening area to protect staff as visitors enter. Directional text, photo imaging, logos, and wayfinding are all possible enhancements available through our printing department. Standard size is 36" w x 72" h x 0.25" thick Acrylic with aluminum frame and custom feet. Custom sizes are available. Price per panel is \$540.00 plus shipping.
